| Buchanan Rehabilitation Centre - Mental Health | Large | Point Chevalier | \$30,000 |

* indicates that the room is adjacent to another and both rooms will be refurbished at the same time to save overall costs

Whānau rooms have such significance; whether giving family the space they need for much-needed time out, or fulfilling cultural significance of having a sacred palliative space to grieve as a whānau, which reflects the original intended purpose of the rooms.

You can help us ensure Auckland DHB's whānau rooms are as warm and welcoming as the people who work there. You can help bring comfort to those spending valuable time with loved ones in hospital.

Please speak to one of the team to see how your philanthropic support can make the biggest impact. Thank you for helping to transform healthcare in New Zealand, making it world-class for everyone. Contact us at:
